APP RESELLER PROGRAM
Unleashing Opportunities with MORESIMP

We are MORESIMP,
The Developer of Enterprise Solutions

We craft exquisite Jira apps designed to unlock your customers' full potential. Our solutions address real business challenges, making Jira even more user-friendly.

FOR US: Collaborating with you as a distinguished Atlassian Partner presents an opportunity to extend the reach of our acclaimed products to a broader customer base.

FOR YOU: You can rely on a substantial and secure revenue stream, with a consistent 20% or 45% partner discount (based on your Partner Status), guaranteed every year, forever! All this without risks, with apps recently used by large companies.
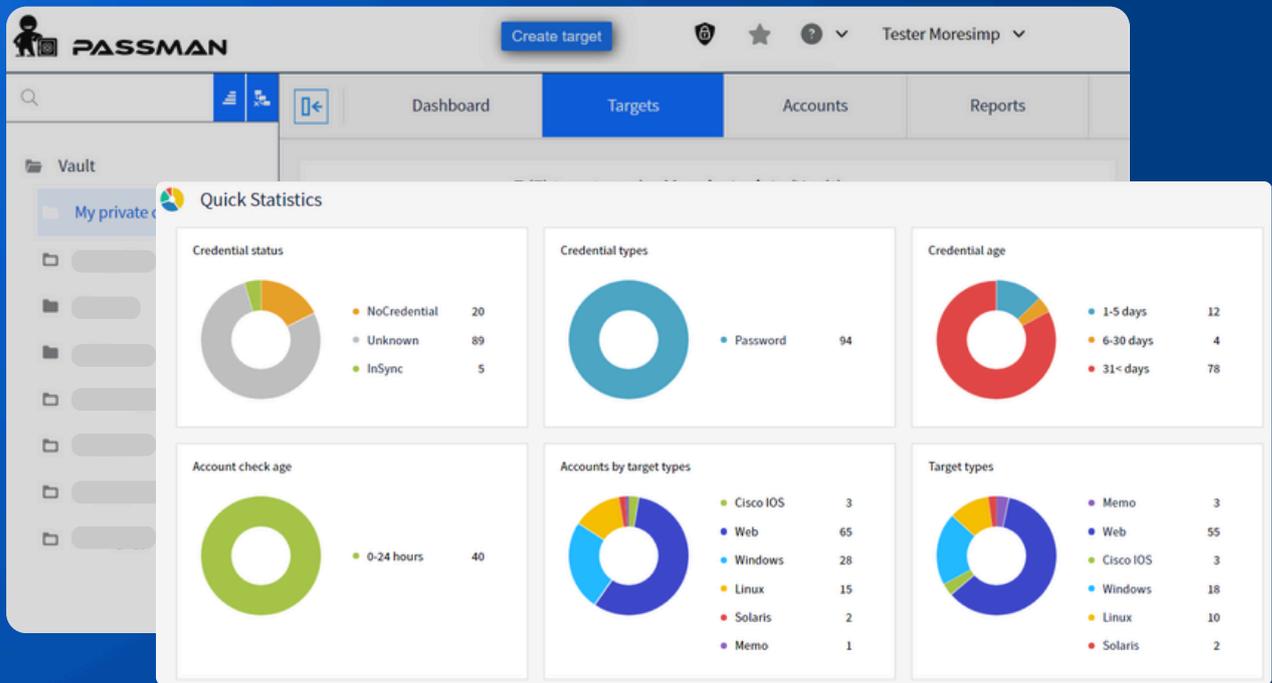

PassMan ⬈

Store and manage encrypted passwords in Jira

Even now, the practice of storing passwords in Jira in plain text or using other outdated methods persists among large companies, presenting a security concern. PassMan Password Manager ensures unparalleled password protection across the entire organization. Use secure login links in Jira tickets, safeguard passwords with encryption, control permissions, safely share passwords among users, generate strong passwords and more!

Available: Cloud

Up to **45%** Partner Discount from every sale!

PassMan Enterprise ⬈

Privileged Passwords, Session Recording

Large enterprises need more advanced security solutions than password managers in order to comply with strict regulations. For enterprise needs, we also offer the advanced PassMan Enterprise (Privileged Access Manager for Jira), packed with top-tier security functions such as auto password and SSh keys replacement (rotate) on targets; session management (create, manage & monitor work sessions); auto account discovery on Windows targets (service accounts too).
